Harrogate International Centre

14 October: 09.00-18.30

15 October: 09.00-16.00

Investing in the Health and Social Care of local communities

We provide high quality facilities and services to support and enhance the Health and Social Care of local communities.

We pride ourselves on our people centred solutions and our focus on delivering value for money to our clients. In an open and honest environment, innovation and quality is at the forefront of all our decisions, products and services.

Growing to meet community needs

After making a healthy and successful start delivering our core business to our Leeds partners, we are now extending the range of services and products we provide to suit regional needs in our operational market place.

Our new service and product range includes:

- A range of property leases with landlord services and facilities management
- Design, Build and Lease Back
- Acquisition of partners' estate with lease back following reconfiguration and enhancement and Landlord services
- Design & Build
- Third Party Developments in primary care with or without Joint Venture arrangements
- Estate strategy / development and support services
- Project management and technical service

7 Compelling Reasons to attend

We understand that time and budgets are tight in the healthcare sector right now. Which ensures you get the absolute maximum value from your time all the more important.

- 1). The complete event for all those involved in designing, building, managing, maintaining and operating healthcare facilities
- 2). Over 100 exhibitors, with the largest range of products and services assembled in one place
- 3). Conference content addressing the big issues as well as your day-to-day concerns
- 4). The chance to go beyond the journals and the internet, and talk face to face
- 5). In-depth advice on products and services from the people who make and supply them
- 6). The greatest single gathering of your colleagues and people from related disciplines
- 7). Ideas, inspiration and answers, whatever your role, specialist field or working environment

Simulation Rooms

Alongside the conventional stands, we've created three Simulation Rooms: model wards, built to approved designs, where you can view some of the latest innovations and products in context and concert rather than in isolation. It's all part of our determination to make the Exhibition a genuine professional development opportunity for visitors, as well as a vital shop window for suppliers.

Sustainability Centre

Sustainability is one of the big policy issues of the moment. So we've teamed up with bodies including BRE, RIBA, The Carbon Trust, the DoH Health Estates Division and PASA to create a new area dedicated to healthcare-related sustainability and environmental issues. It's the perfect complement to the Exhibition, offering advice, information and a professional forum you won't find anywhere else.

Register your visit online now.
