# Investing in the Health and Social Care of local communities

We provide high quality facilities and services to support and enhance the Health and Social Care of local communities.

We pride ourselves on our person centred solutions that add value and are value for money and our open and honest approach to working with all our stakeholders. Innovation and quality is at the forefront of all our decisions, products and services.

## Growing to meet community needs

After four years of successfully providing our services to our Leeds partners, we have now extended the range of services and products we provide to suit the changing regional and national markets.

## Our service and product range includes -

- Property Management & Development
- Capital & Minor Works
- Acquisition of NHS partners' retained estate with Landlord services
- Design & Build
- Third Party Developments with or without shareholding to GP's
- Estate Planning / Development and Management
- Facilities Management

## 7 Compelling Reasons to attend

We understand that time and budgets are tight in the healthcare sector right now. Which ensures you get the absolute maximum value from your time all the more important.

- 1). The complete event for all those involved in designing, building, managing, maintaining and operating healthcare facilities
- 2). Over 160 exhibitors, with the largest range of products and services assembled in one place
- 3). Conference content addressing the big issues as well as your day-to-day concerns
- 4). The chance to go beyond the journals and the internet, and talk face to face
- 5). In-depth advice on products and services from the people who make and supply them
- 6). The greatest single gathering of your colleagues and people from related disciplines
- 7). Ideas, inspiration and answers, whatever your role, specialist field or working environment

## Focus on FM

In response to feedback from last year's event, we've created 'Focus on FM', a dedicated show-within-a-show at the entrance to Healthcare Estates. Supported by leading organisations, including the HFC, BIFM and FM Focus, this area will feature a series of short presentations, which we're calling 'Hot on FM'. These will run every half-hour, giving you a chance to hear about FM-related products, services and best practice direct from exhibitors and industry experts.

## Sustainability Centre

We've teamed up with bodies including BRE, the NHS PASA Sustainability Team, Salix Finance, The Carbon Trust, the DoH Health Estates Division, NHS PASA Estates Department and the NHS Sustainable Development Unit to create a new area dedicated to healthcare-related sustainability and environmental issues. Throughout the two days, you can attend a series of 'drop-in-drop-out' presentations on a huge range of sustainability-related topics by experts from our partner organisations including how grants and low cost capital loans could help to achieve your energy and carbon reduction targets.
